

FUSION LAUNCHINGS

This month I thought we would show the launching and also the construction site of where the Fusions were built. The mailing list for the "Hot Goss" newsletter is now several thousand, and as you are all over the world, and not able in some cases to see another being constructed, felt it may help understand what some builders use as a workshop.

This wonderful example was assembled by Darren and Jenni Hart in Melbourne and is available as a day charter vessel for those wanting a test sail.

www.LaPassionByFusion.com

This is the new web site that is totally dedicated to the Fusion Kit catamarans, it will be added to over the coming months to contain the owner's pages with all the information available for assembly, lists of suppliers and also options. Keep an eye on this great site it is being developed especially for you.

Launchings continued

Kalani is the name chosen by Greg and Kaye White of Sydney for their Fusion 40 which was assembled at Lake Macquarie in NSW. Greg was so impressed with the complete system that he has now become the NSW Agent for Fusion.

The pics below show the building structure in June and also in September

The latest launching in Western Australia is the Fusion 40 of Jim and Dianne Cann. Jim started construction in February, and we are awaiting additional build and sailing photos for the new web site.

Welcome New Members to the Fusion Marketing Team

Jason pictured during his time as skipper of the 200 ton Perini Navi Ketch, "Christianne B"

Two new key positions have been taken up in Marketing and Product Development with the appointment of Camille Coste and Jason Gard.

Jason is a qualified Captain and Engineer. He started his yachting experience in Sydney, where he was bought up aboard a cruising catamaran. He spent the next 10 years working aboard commercial vessels between Sydney and Cairns.

Later on he furthered his career in the Mediterranean, Caribbean and United States, captaining luxury sailing yachts for over 8 years.

He is bringing his pragmatic knowledge of managing luxury

Camille is seen here enjoying a fast ride to Melbourne onboard the Fusion 40 "Verve" prior to it being refitted for Charter.

I just love fun pictures and this is no exception, who would like to suggest a caption for it.

vessels into the Fusion business. His goal is to provide high levels of quality, service and support to the customers, as is expected in the yachting industry.

Camille Coste has completed a Bachelors in International Business and Management, complemented by a Masters Degree in Concept Development.

She has gathered work experience as a junior strategist at a major advertising company in Amsterdam and has been active as a freelance graphic designer and marketer over the past 4 years. Speaking 5 languages will be of great benefit as Fusion further develops the International Markets.

Her sailing experience encompasses an Atlantic crossing and many sailing miles on the East Coast of the United States, the Caribbean and Australia. She is now in charge of Fusion's marketing and advertising and is devoted to creating a quality image to equal Fusion's quality catamarans.

Love a Fusion, but can't Justify the cost of it sitting in a marina for 10 months of the year!!

Call us to discuss your particular situation, I'm sure we can help

CRUISING PICS

THIS MONTHS NEW PRODUCTS

Along with the great list of International companies supplying great components for Fusion owners, we now welcome Furuno. After many months of painstaking research the build team voted the

system tops. Furuno will be supplying the full electronic navigation system for the Show Boat.

For more information on these exciting products contact :

jason@fusioncats.com

The cruising pictures in this month's Newsletter were supplied by Mike and Chrissie Williams owners of the beautiful Fusion 40, *Ohmless*. The dramatic photo above was taken at Second Beach in Trinity Inlet, Cairns. The Fusion to the right is *Ohmless*. The other photos were taken on the Great Barrier Reef and Hinchinbrook Island. Thank you Chrissie and Mike, from all those that had to work in the wind and the rain to keep the country running!!.
