

NEWSLETTER

INDEX

In this special edition Newsletter we put forward some new suppliers, new products and ideas which we hope will help the many new owner/builders worldwide.

Contact details and Pricing for any of the new suppliers is available on the owner/builder website.

Table Pedestals

If you would like to be a little more upmarket with your Fusion fitout, there is now available these beautiful Stainless Steel Table pedestals, which are manufactured in Brisbane, Australia to 'Super Yacht' standards.

Also available is the table slider which simply mounts on top of the pedestal and gives your guests easier access around the table, when in the lower positions.

Seat Pedestals and Seats

A full range of Stainless Steel seat pedestals is also available, plus the seat mounts and also luxury seats in many styles and colours.

Aluminium Seat Pedestals and Seats also. . .

For those wanting quality, but are weight conscious, a full range of aluminium pedestals are also available, plus the seat mounts and the same luxury seats in many styles and colours.

For a full range check out the building web site or contact Fusion Australia.

Suppliers continued . . .

DECK HARDWARE

Harken is a leading manufacturer and distributor of innovative sailboat hardware and accessories. Harken has been producing and supplying worldclass, high quality marine deckhardware for the worldmarket for decades and, as is Fusions Catamarans policy, we promote and support relationships with international companies that are prepared to supply complete 'Fusion' kits. Not only are we interested in the supply of the kit at great pricing, we also need to know that the company is able to provide the backup that maybe required anywhere in the world. I have had first hand experience with this and Harken have proved themselves to be one such company.

As a Fusion Builder you might also consider purchasing other quality Harken products such as:

A visit to the Harken website at www.harken.com (and select your country) can provide you with everything from the latest news to Q and A's on every item they sell.

So if you are building, don't forget to check them out, download the kit spreadsheet from fusionscats.com and if you have questions, you can contact me at Fusion Cats.

BLA

Suppliers of all those bits and pieces to do with boats

No matter whether you are building in Australia or Asia, BLA have systems plus the organisation to deliver the right products on time.

We used BLA to supply the 100 and 1 things we required for the Showboat which was built in Subic Bay in the Phillipines.

As BLA do not deal direct with the public it will be necessary to contact Fusion first. The current Price list is now available as a download from the Fusion Cats Owner/Builder web site.

You can check out the products on their website at: www.BLA.com.au or we can give you access to their digital catalogue

This is just another example of how Fusion Catamarans help you to produce the best product at the best price.

Fusion Catamarans offer an alternative . . .

Attending Boat Shows, the normal paraphernalia would be the Camera, sometimes the Video plus the Laptop a dictaphone (to save writing), a calculator and of course the mobile phone.

This allowed me to collect emails, show video, show pictures, look up files, give quotes, photograph new products etc etc.

Now I attend Boat Shows with an iPhone, it does all of the above, plus so much more, and I think for the weekend warrior or the coastal cruiser, it is an item well worth considering, as it has so much in the way of Marine Functionality.

Consider the cost of all these items that can now be gained and displayed on a simple mobile iphone.

One app (pictured below) is called Sailmaster cost (\$14.99 Aus)

Features include:

- * Boat Speed, in knots or km/h.
- * Waypoints/Course, using GPS co-ordinates of the rounding marks (and other obstacles).
- * Digital Compass, measuring the direction the device is moving in rather than the direction it is pointed in.
- * VMG (Velocity Made Good) and time to next marker or waypoint
- * Tidal information, displaying direction, height and times of the tide in a user's local area.

Three other features, more suitable for the racing sailor are:

- ** Countdown timer, configurable for 15, 10, 5 or 3 minute countdowns.
- ** Lift/Header, calculating a shift in direction from the average boat direction and displaying the variance as either a lift (+) or header (-).
- ** Angle of heel.

Waterproof Case

SailMaster

Tides

Time	Tide Information
3:18 AM PST	Slack before Ebb
5:58 AM PST	2.11 Knots (E)
8:07 AM PST	Slack before Flood
10:12 AM PST	0.88 Knots (F)
12:34 PM PST	Slack before Ebb
4:39 PM PST	5.03 Knots (E)
7:52 PM PST	Slack before Flood
11:09 PM PST	5.69 Knots (F)

Marine apps on the iPhone

iNavX:

This is a seriously impressive navigation program, which essentially gives you a high-quality chartplotter within your iPhone.

Developed by the people who produced the respected GPSNavX program for Macintosh, it's a fully featured navigation program that gives you just about everything you need for navigation, including detailed maps, at a very affordable price.

(Varies from country to country, but less than \$80 or equivalent)

Wind Meter:

This is a great example of some real lateral thinking. Wind Meter works by measuring the volume of the wind passing across your iPhone microphone (who would have thought you can even do that), and converting it to a wind-speed reading

Knots:

For those who are rope-challenged, there's a whole bunch of knot-tying Apps available, including some very slick animated ones, ranging in price from \$1.20 to \$5.99.

For a Full 8 Page story on Marine apps for the iPhone, email me at Fusion Cats.

Australian Furniture Mouldings . . .

Full Internal Mouldings have been produced by Fusion Mackay and are available individually or as a complete Kit. Finishes can be discussed with the manufacturers, as can the supply of Timber Joinery.

Contact us for more details.

cedures for both
these 'new' and
also existing
Fusion Audio
Products**

You would be crazy, if you didn't fit Fusion Audio

SAILS . . .

Don't forget when ordering New or Replacement sails for your Fusion 40, we can supply Standard Fusion 40 Mainsail in DC Cruise Laminate DC77/99: US\$ 3'200 (less than \$4,000 Aus July 09).

Check out the Full Fusion Sail wardrobe (Main, Jib, Screecher and Spinnaker plus Sock) plus the Pentax as well as the Carbon Options on the Builders Website.

The Fusion Show Boat is proudly powered by the GPLDT Carbon double taffeta GPL14/21DT: Sails.

I am sorry but I have only been allowed 8 pages, and I still haven't covered the new products that these great companies supply to you, the Fusion Builders.

AllYacht Spars, BEP, Capi2, Classic Marine, Fabtex, Flexiteak, Foruno, Lewmar, Multipanel, Navico, Raymarine, Yanmar.

If you haven't started building your Fusion yet, the time has never been better. The Australian dollar is strong against the Euro and the price today 23rd July, 2009, is \$13,000 Aus cheaper than it was in 2004.

If you would like to know more about the world's best Moulded Fibreglass, Component Kit Systems, then contact us at Fusion Catamarans.

There is still time to take advantage of the Australian Governments 50% Tax Rebate scheme or join one of the Share Boat syndicates.
