

HOT GOSS

HOT GOSS is the regular Information vehicle of Fusion Catamarans Australia Pty Ltd.

Fusion Spreads its Wings

Subic Bay, Phillipines is the latest in a list of new countries to embrace the Fusion modular style of Boat construction.

ACS is a well established company, which has been involved in everything from Superyacht refurbishment to production manufacture of large Ribs.

ACS will manufacture Fusion Catamarans Production Sailing Boats.

The picture above was taken from the ACS Boardroom and shows the magnificent Harbour of Subic Bay with the Yacht Club in the centre.

Below: shows a small part of the ACS manufacturing complex, exterior and interior.

Above: *Back row L to R:* Peter Schelling, Chairman of Fusion Catamarans International, Gustavo Ansaldo, ACS Production Manager, ACS CEO, Duncan Trower and ACS President, Angelo Olondriz, and Jim Gard, CEO Fusion Catamarans Australia, *Seated are:* Angel Manday and April Trower.

IT REALLY WORKS

At Fusion we get a bit blase' about the kit construction, but every now and again someone reminds us of just how good it is. This Kit was delivered in the 2 containers as usual, and these pictures were taken on the morning of the 4th day.

Not only do you finish up with a fully moulded, modern infused fibreglass vessel, you are in the water in a fraction of the time.

Drop Dead Gorgeous!

That was the comment from one of the visitors to the Fusion Stand at the recent Auckland Boat Show. It was a tremendous effort by the Team at Fusion Cats NZ, to get the boat ready in time for the show, and what a beautiful job they have done.

VALUE ADDING

Rather than install any old Sound system in your Fusion, why not add value and performance with the brilliant range of Fusion Marine audio equipment.

We at Fusion Catamarans have made an arrangement with Fusion Electronics to supply us at an OEM price which we can pass on to you. All you need to do is contact us for a brochure and we can place the order for you. Fusion Electronics will also be at the Sanctuary Boat Show where they will have on display their new range.

AUDIO FOR CATS

The new (BMW) Yanmar range of diesels have been chosen to power the Fusion Power craft. With engine sizes from 140 to 260hp will give the power boat a speed range of 15 to 30 knots.

EQUIPMENT:

New names to be added to the Fusion list of partners are:
Navionics (electronics)
Raymarine (electronics)
Fusion (audio equipment)
E-PLEX (Electrical circuitry)
OSSAR (Diesel Electrics)

SANCTUARY COVE BOAT SHOW

May 24th to 27th

The Fusion 40, which has been assembled by Mal Harte in Melbourne is expected to be available for inspection at the Boat Show

Fusion Cats Australia, have a stand in the Super Yacht Pavilion "D", stands 383-384 on the stand will be members of Brisbane Power cats, the new Fusion Company in Brisbane, also Matthew Morgan, who has done a lot of the design work on the Power Cat and the furniture modules.

if you need a map, email me.

Look forward to meeting you during the show.

FURNITURE MOULDINGS

Furniture mouldings are now available, for the Aft Head area, forward ensuite and all of the Saloon and Galley. A pre-routed flat panel Kit is also available for all other areas. Please email me for details and extra pictures.
